TO KNOW what to do in an emergency is always of value, and especially so if the know-ledge is combined with the will to put it into effect. If there is one emergency more than another which demands that Knowledge and Action should join their forces it is that of a disordered digrestion. When this condition arises—and it does with many people rather frequently—it is well to know that

BEECHAM'S PILLS are admittedly a first-class remedy, and it is better still to have them ready to take without delay. In cases of stomach trouble delay is, sometimes, fraught with mischief; there is the possibility of serious developments always to be kept in mind. The action of Beecham's Pills

IS TO cleanse the stomach, liver and bowels from waste accumulations, to impart tone to those organs and to enable them to per-form, their functions with efficiency. Hence this medicine brings about a rapid

LITIGATION OVER KINGS-TOWN BUSINESS.

THE complexion should not be allowed to take care of itself another twenty-four hours, it should receive the nourishment and attention it needs to night. Why delay? Why postpone the improvement in your appearance for another two rounds of the clock? Go to your chemist or perfumer to-day and obtain a jar of Pomeroy Skin Food—the celebrated Society Toilet Preparation. Then to-night massage a little of the Food into your cheeks. You will be surprised how eagerly the hungry kin absorbs the much-needed nourishment. What remains can be gently removed with a soft handkerchief and another surprise will be to observe its cleaning effect. Continue the use of Pomeroy Skin Food nightly, and your skin will regain the softness, smoothness, clearness and delicacy that it bad years ago.
Younger people should remember that preven.

capture of Orsova does not only restore the control of Danube traffic to the enemy; it also gives them possession of a railway line to supply the operations of General von Falkenhayn in Wallachia. The forces which broke through the Vulkan Pass and down the Jiul Valley to Craiova had no railway communication at their service. On the Hungarian side of the Transylvanian Alps a railway is carried to the northern mouth of the Vulkan Pass. It is not, however, carried through the Pass; and, although at Targu Jiu, beyond the Pass, the invaders would find a Rumanian railway running thence to Craiova, that would be useless to them in the absence of rolling.

in the aid of Marshal von Mackensen, who is attempting to create a diversion by crossing the Danube at Zimnitsa, almost due south of Bukharest. Here, we learn from the Rumanian communiqué, an enemy force, in what strength is not stated, is "trying to disembark." This move of Marshal von Mackensen is not likely to be serious. He is being pressed hard in the Dobrudja, where he must at all costs maintain a defence; he has had to send aid to the Bulgarian Army resisting General Sarrail's offensive in Maceden and to send aid to the Bulgarian Army resisting General Sarrail's offensive in Maceden and he can have few men to spare for desperate adventures across the Danube. General von Falkenhayn's strength in Rumania, similarly, appears scarcely adequate for the execution of his ambitious, and certainly venturesome, designs. We say that this is the most serious con- full conviction that the Allies are fighting

We say that this is the most serious consequence; for there is now good reason to suppose that the enemy's irruption to Craiova has not involved the Rumanian forces lately in the region of Orsova in any inextricable entanglement. There is no direct evidence that they have been successfully withdrawn—on the contrary, as late as Thursday at least a rear-guard was in action between Orsova and Turnn—Severin, some ten miles east of the former Severin, some ten miles east of the former town. The Germans, however, make no claim families, placed under a system of slaver to any large captures, and it is possible and compelled to serve their enemi to conclude that they were not in a position to reap the full advantages of their swift descent on Craiova. Sir Hiram Maxim was an excellent raconteur, with an inexhaustible supply of stories picked up during his long and adventurous life. Many of them related to his famous gun. On its being shown to Li-Hung-Chang he remarked: "This gun fires altogether too fast for China." The then King of Denmark put the same idea in a slightly different way when, after being told that it would fire 600 rounds a minute, he said: "That gun would bank-rupt my little Kingdom in about two hours."

To the very last Sir Hiram retained his interest in science and his inventive capainterest in science and his inventive capa

interest in science and his inventive capacity, and one of the latest problems to which he devoted his mind was the destruction of Zeppelins. Early in this year he suggested that it would be solved by igniting the hydrogen in the balloonets, and said that an apparatus for the purpose could be worked from aeroplanes. He lived long enough to see his prophecy amply fulfilled.

FRIDAY, 10.22 P.M. Last night we raided the enemy trenches south-east of Grenay, and in the Festuhert and Bois Grenier sectors.

Otherwise there is nothing to report.

During the day hostile artillery was active against our front in the neighbourhood of Lesbœufs and Beaucourt and on both sides of the La Bassée Canal.

Enemy infantry south if Puisieux were dispersed by our artillery fire.

Yesterday much successful work was accomplished by our aircraft. Twelve of our machines encountered an enemy formation of twenty aeroplanes, and as a result of the fight one hostile formation dispersed. One of the enemy machines was destroyed and several others driven down damaged.

All our machines returned safely. In other fights in the air four more of the enemy's aeroplanes were destroyed. Three of our machines are timissing.

During the same day on the Somme front our aviators engaged in about forty fights, in the course of which five German aeroplanes were brought down.

Quartermaster-Sergeant Flychiere brought down his second machine, and Lieutenant Duillin his tenth machine.

It is confirmed that during the day of the 22nd Sub-Lieutenant Cunier brought down a second machine, which makes 25 in all.

Six of our aviators dropped fifty shells of 120 mm. on Bruerres.

One of our air squadrons carried out a bombardment on the aviation ground at Grisolles. One hundred and seventy shells of 120 mm. were dropped.

During the night of the 23rd and 24th four of our aeroplanes between 9.30 p.m. and 1.10 a.m. went to bombard the glass furnaces and works on the Serre. In the course of this expedition twelve shells of 120 mm. and twelve of 166 mm. were dropped, and seem to have hit their mark. The machines returned safely.

Last night's communique says:—

The day was quiet on the whole of the front.

AUSTRIA'S DESPERATE CONDITION.

The Daily Telegraph's own correspondent at Rome, in a message last night, says—Monsignor Count Scapinelli, formerly Nuncio at Vienna, who is to be oreated a Cardinal at the next Consistory, has arrived here, and this morning had a long interview with the Pope upon the present situation in Austria and recent events at the Imperial Court. A member of the entourage of Count Scapinelli informs me that conditions in Austria are worse than anything that has been reported hitherto. The people are on the verge of starvation, and cannot hold out much longer. Their only hopes now are based on military successes in Rumania.

BRAEMAR CASTLE MINED OR TORPEDOED.

ALL ON BOARD SAVED. PRESS BUREAU, FRIDAY, 1 P.M.

The Admiralty announces:—
The British hospital ship Braemar
Castle, homeward bound from Salonika to Malta with wounded, has been mined or torpedoed in the Mykoni Channel, in the Ægean Sea.

oncerning the loss of the Britannic.

(PRESS ASSOCIATION WAR SPECIAL.) ATHENS, THURSDAY, 10.50 P.M.

THE BRAEMAR CASTLE.

THE BRAEMAR CASTLE.

The Braemar Castle was a Union Castle liner of 6,318 tons, built in 1898 by Barclay, Curie and Co., of Glasgow. When she was first put on the South African service the reusel was the crack liner of the Union Castle fleet, and was a great favourite with passengers to the Cape. Since the outbreak of the war the Braemar Castle has been entirely in Government service. She was one of the fleet of transports which carried the Naval Division to the Dardanelles. Since that time she was fitted as a hospital ship, carrying the usual distinguishing marks, and was employed almost exclusively in the Red Cross work of the Army of the Sast. The Braemar Castle was a steel screw fourmasted steamer, with a length of 450 feet, and a beam of 52 feet. In the current issue of "Lloyd's Register" the name of her Commander is Captain E. J. Hall.

One of the great difficulties in the way of carry ing out any structural improvement in these Hop pitals is the lack of any fund for such a purpose of the Hoppital receiving a Government of the Hoppital receiving the Hoppital receivin

which in these times should come under the heading of a luxury, and consume its component parts in their original condition. If even the butter production were reduced 50 per cent. it would release a very great amount of good milk. This would make up for the shortsage of supply. The farmers would get just as good a price for the milk as they get at the creameries, the nation would benefit at large, and a moderate revival of public interest were and a moderate revival of public interest were and a moderate revival of public interest were

FOR NEW ISSUE The Freeman's Journal

> NEW PREMISES, to replace those totally destroyed during the military operations of Easter Week, are now nearing completion and will be ready for the production of the Freeman's Journal once more by its own Staff and its own Machinery on an early day in the New Year.

EARLY IN JANUARY.

The interval since the calamity of April last has been utilised to reorganise the paper fully in all departments. As a result the new issue will be vastly improved and strengthened in every respect.

The new machinery and general equipment will be the best and most up-to-date to be found in any Newspaper Office in Ireland. The News Services of all kinds will be superior to those of any other Irish Morning Paper, and ensure that the paper will immediately take its old position as pre-eminently

THE NATIONAL ORGAN OF IRELAND.

With this view the various staffs are being specially strengthened, and the public may rest confident that the freeman in its new guise will be better and stronger than at any previous period of its history, and will be in every respect

THE GREATEST DAILY PAPER IN IRELAND. The General Offices of the Company will be situated at

6 & 7 TOWNSEND STREET, DUBLIN,

in addition to which Premises have been secured for ADVERTISING OFFICES and SERVANTS' REGISTRY at

27 WESTMORELAND STREET. Simultaneously with the new issue of the Freeman the publication

EVENING TELEGRAPH

will be resumed. It will be the best Evening Paper ever published in Ireland. Special Telegraphic and Printing Machinery are being acquired, so that readers of the Etering Celegraph from its restart will have at their service the quickest and most reliable news supply in the country. The Paper, needless to say, will resume its old place as the organ of the Dublin democracy. The

SUNDAY FREEMAN,

which likewise had to cease publication, will also be revived and will be found to be the brightest and most wholesome Sunday Paper circulating in the country.

New Features will also be introduced in both the

WEEKLY FREEMAN & SPORT.

which, like the other publications of the Company, are being thoroughly reorganised with a view to increasing their value and attractiveness to the public.

Look Out, therefore, for the early part of January, and note the New Addresses:—

General Offices: 6 and 7 Townsend Street, Dublin. Advertising Offices and Servants' Registry: 27 Westmoreland Street.

be a condition very much between the control of general jumble which has come of devotion to Local circumstances.

It has been the scheme of nearly every club to make its best man plus 3 or plus 4, irrespective of how he compares with players elsewhere of the same handicap. That, to say the least, is a very elementary way of doing the thing. There are people who urge that the best way would be to do away with plus handicaps altogether and work on the basis of the leading amakeur of the country being rated as the scratch man. It is doubtful whether the idea has so much to recommend it as appears on its ample countenance. America tried it for years, and ultimately gave it up in despair.

The American magazines supply plenty of evidence that the British golf ball manufacturers are going shead with their plan for securing a share of the ball market in the States. Familiar advertisements greet the eye, and doubtless the dawn of another season will find the makers with more liberal stocks to discharge than they have had up to the present. DIOCESAN SCHOOL FOR

THE ARCHBISHOP OF DUBLIN'S ADDRESS.

ADDRESS.

The Archbishop of Dublin presided over the annual distribution of prizes to pupils of the Diocessan School for Girls, which took place vesterday afternoon in St. Matthias's Parochial Hall, Adelaide road, Dublin. Among those present were:—

Rev. W. and Mrs. Anderson, Rev. W. and Mrs. Baillie, Mr. W. C. Shubba, Rev. Precentor Courtenay Moore, Rev. A. E. Hophes, Rev. J. R. Donaid, Mrs. Ryc. Mrs. M Vittle, Mrs. Tweedy, Miss Berry, and Miss J. Culverwell.

Mr. Stubbs, who is manager of the school, spoke of the teachers' competency. He read a letter from the Bishop of Clogher, an old friend of the school, who wished lim to express to the Archbishop his regret that he was unable to be present. Captain Wade Thompson, D.L., one of the Governors, also apologised for his inability to attend the meeting.
